Description Oils-Energy > Energy-alternate Sources > Alternative Energy - Other

Gevo, Inc. is a renewable chemicals and advanced biofuels company engaged in the development of biobased alternatives to petroleum-based products using a combination of synthetic biology and chemistry. The Company is focused on the commercialization of isobutanol, a naturally occurring four carbon alcohol with broad applications in large chemicals and fuels markets. Isobutanol can be used as a solvent and a gasoline blendstock and can be further processed into jet fuel and feedstocks for the production of synthetic rubber, plastics and polyesters. Markets served by the Company include solvents and coatings, materials, plastics and fibers, biojet blendstock, gasoline blendstock and other hydrocarbon fuels.
